What is a Police Information Check?

It is more than a Canadian Criminal History Check. Known as Police Information Check (PIC), the results will be provided on a Calgary Police Service certificate letter, detailing Canada-wide Criminal Record History, Vulnerable Sector Search and Police History. This includes Local Police Information and Alberta Provincial court records.

What Systems are searched for PIC's?

The Calgary Police Service uses three search mechanisms:

Sentry – Local records of the Applicants Involvement with Calgary Police Service (Police Records Management Systems)

J.O.I.N. – the Alberta court system (Justice Online Information Network)

C.P.I.C. – the Canadian Police Information Centre system and R.C.M.P. National repository in Ottawa

This Police Information Check only provides information found at the time of the check, on the above listed systems. The Calgary Police Service does not guarantee completeness of the information, as we are limited to information available on these systems. This check does not include information found in any other jurisdiction's local police information system; nor does it include court information from any other provinces, except convictions registered on the National Repository for Canada and information entered onto the Canadian Police Information Centre System.
